# 1 General information

## 1.1 Air Cruiser Features

Air Cruiser is characterised by the following qualities and offers you plenty of advantages:

- **extensive outcome/result**
- **rapid answers**
- **filter- und sorting functions**
- searching for **openjaws, stopovers** and **classmixes**
- **developed and designed by several market leaders**

## 1.2 Main Page

The Main Menu includes the following options/working areas:

- **Fare Search** - searching for available flights
- **Fare Data** – searching for flights, without verifying availability
- **Bookings** – overview of transacted bookings
- **Booking Review** – clear view relating dates and deadlines
- **PNR Import** – to import, optimise and send self booked PNRs to TUI Flightcenter
- **Settings**
- **Logout**

The screenshot shows the main menu of the Air Cruiser system. The 'Fare search' tab is highlighted with a red oval. Below the menu, there is a search form with the following fields and options:

Departure	+/-	Destination	+/-	Stop	Date	Time	Date flexibility	Via
ZRH		BKK			20.08.2015		Departure	
BKK		ZRH			03.09.2015		Departure	

Options and filters:

- Oneway
- More segments
- Direct flights only
- Cheapest per airline
- Select passengers: Adult (1), Child (0), Infant (0)
- Airline(s): BA
- Booking classes: [ ] [ ]
- Airline-alliance: [ ]
- Cabin class: Economy
- Allow different cabin for feeder
- Fare type:  Net fares (all),  Net fares (ethnic),  Net fares (tour operator),  IATA/Nego,  Flex

Buttons: reset, start search

The screenshot shows the 'Info/News' section of the Air Cruiser main menu, highlighted with a red oval. Below the menu, there is a welcome message:

Willkommen in Aircruiser, der neuen Tarifdatenbank des TUI Flightcenters

### 1.3 Browsercompatibility

Air Cruiser is optimised for Microsoft Internet Explorer Version 8 and higher and Mozilla Firefox.

## 2 Search and Booking Engine

### 2.1 Helpful support

A calendar with additional school holiday information for Switzerland, Germany and Austria provides assistance with your flight search.

The screenshot shows the 'Fare search' interface. On the left, a calendar for 2015 is displayed with school holidays highlighted in green. A red circle highlights the 'School holidays Switzerland' dropdown menu, which currently shows 'Zürich'. The main search form is titled '1. Request' and includes fields for departure (ZRH), destination (BKK), stop (ZRH), and dates (20.08.2015 to 03.09.2015). It also has options for passenger types (Adult, Child, Infant), fare types (Net fares, IATA/Nego, Flex), and search buttons 'reset' and 'start search'.

By typing the city name or 3-letter code a drop down helps you to find your airport:

### Airport Search

Nach  Umkreis

- Sydney (SYD)
- Sydney (YQY)

Emirates	EK	16:25h / 15:25h	PUB AS 1/1 FEE	635 .90 CHF

This first line provides the following information and function:

108 fares Offer (Excel) 1 - 15 / 108 Sort by: Price

Ticketing on	Operated by	Travel time out/in (incl. stops)	Mini rules	Price (total)
--------------	-------------	----------------------------------	------------	---------------

- number of offers (a total of 108 available fares)
- export into an Excel-chart to edit offers
- scroll function
- sorting by price, price incl. credit card fee, popularity, flight time, departure time

## 2.2.2 Filter- and Sorting Functions

Cheapest per airline

Fastest per airline

Show fare breakdown

**Margin slider**  
 0 OK X

clear all filters

**Number of stops**

<input type="checkbox"/>	Direct flight	20	from 779 CHF
<input type="checkbox"/>	One connection	84	from 617 CHF
<input type="checkbox"/>	2 stops	4	from 950 CHF

**Fare type**

<input type="checkbox"/>	IATA	62	from 617 CHF
<input type="checkbox"/>	Net fares (all)	4	from 779 CHF
<input type="checkbox"/>	Net fares (tour operator)	34	from 640 CHF
<input type="checkbox"/>	Nego	8	from 639 CHF

**Ancillary services**

<input type="checkbox"/>	No additional charges	79	from 617 CHF
<input type="checkbox"/>	Surcharge for use of CC	29	from 735 CHF

**Airline**

<input type="checkbox"/>	Air Berlin	1	from 8340 CHF
<input type="checkbox"/>	Air France	1	from 1135 CHF
<input type="checkbox"/>	Finnair	1	from 831 CHF
<input type="checkbox"/>	British Airways	1	from 772 CHF
<input type="checkbox"/>	Eva Air	1	from 3586 CHF

On the left side of the display you find scores of filter- and sorting functions.

*You can select as follows:*

- lowest price by airline
- shortest travel time by airlines
- show fare composition
- numbers of stopovers (transit points)
- fare type
- possible additional costs
- aircraft type
- airline

Through the „Margin Slider“ you are able to increase and reduce your margin individually. Just position the margin slider as you prefer and click on the button „OK“ to adapt the settings and recalculate the fares. By using the button “X” you will reset the margin slider back to 0.

These functions allow you a competent and prompt consultation at any time.

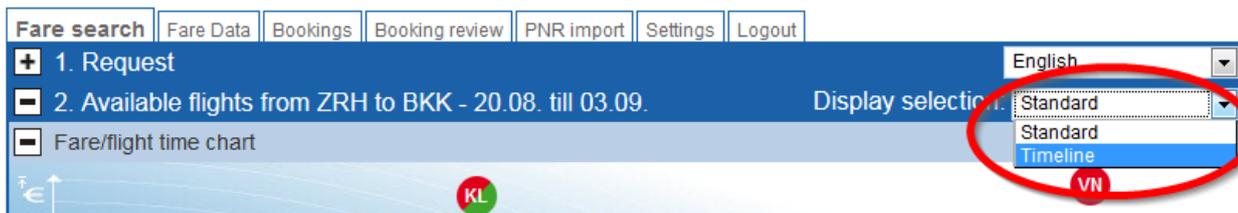

## 2.2.3 The Fare- / Flight Time Chart

The “Fare- / Flight Time Chart” in the upper area helps you to see the combination of fares and flight time at first glance. The two most important dimensions in comparison of flight are the fare and the flight time. The fare is shown on the vertical and the flight time on the horizontal. The green point shows the best offer, the red point the offers with longest flight time and highest fare.

## 2.2.4 The Timeline Chart

After a request with fixed outbound and inbound flight you may switch from “standard” to „timeline“.

The Timeline Chart visualizes flight time, transfer time and departure time compared to the fare and therefore helps you to find the ideal flight.

You can choose outbound and inbound flight just by clicking on it. Air Cruiser estimates the associated fare.

Outbound/inbound flight calendar display (7x14 days)													
<input checked="" type="checkbox"/> all	Inbound Mo, 03.08.	Inbound Tu, 04.08.	Inbound We, 05.08.	Inbound Th, 06.08.	Inbound Fr, 07.08.	Inbound Sa, 08.08.	Inbound Su, 09.08.	Inbound Mo, 10.08.	Inbound Tu, 11.08.	Inbound We, 12.08.	Inbound Th, 13.08.	Inbound Fr, 14.08.	Inbound Sa, 15.08.

### 3.3 PNR Import

This function allows you to import all your own bookings (created through GDS manually). If a booking is imported, you are able to manage this booking as an original Air Cruiser booking (created through "Fare Search"). Only Amadeus bookings can be imported.

If you have any problems by importing bookings, please contact TUI Flightcenter for assistance.

Fare search	Fare Data	Bookings	Booking review	<b>PNR import</b>	Settings	Logout
-------------	-----------	----------	----------------	-------------------	----------	--------

**PNR import** English ▼

**Import PNR**

Hier können Sie die von Ihnen manuell im eigenen Amadeus angelegte Buchung importieren. Dazu sind allerdings vorher Freischaltungen für folgende Office IDs notwendig ZRHL128TM. Für jede dieser Office IDs führen sie bitte folgenden Befehl aus:

einmaliger Branch Access: EOU-[Office ID hier einsetzen]-PNOB  
oder pro Buchung: ES[Office ID hier einsetzen]-B und danach mit ER speichern.

Beispiel:  
einmaliger Branch-Access: EOU-ZRHL128TM-PNOB (wiederholen Sie die Eingabe pro Office ID)  
oder pro Buchung: ESZRHL128TM-B.  
Bitte schließen sie danach die Transaktion mit dem Befehl ER ab.

booking code  

**PNR import**

### 3.4 Pricing / Repricing

A repricing is necessary if the ticket order does not occur the same day the reservation was made or if you have any errors during the booking process. You may select the fare type which has to be priced.

If the pricing was successful, Air Cruiser shows you the calculated price. You can either save or abort pricing.

## 4 Settings

In this area you may define your own calculations (not available for TUI Retail). For further information please consult the corresponding manual.

### 4.1 Agency Data

This sector allows you to deposit your personal Agency Data. For example adress, phone number, e-mail and much more. Theses information will be used and shown on the intinerary and confirmation.

You may upload your Travel Agency Logo as JPG-File. Here you may also set your home airport as default (for „Fare Search“ and „Fare Data“)
